PRICES in this catalog cancel all previous lists and quotations. Prices are subject to change without notice.

"3 TO 4 FEET" means that the tree or plant will be 3 feet or over, but under 4 feet; and throughout the list the same.

STOCK SPECIALLY SELECTED by customers at the Nurseries will be charged according to the value of the stock chosen, irrespective of catalog price.

VISITORS WELCOME. You are invited not only to visit the office, but to go over the extensive grounds as well. There are more than 500 acres in the farm.

OUR LOCATION. Near Airport, 6 miles west of city limits, on highway 421 to Winston-Salem. Our shipping point is Guilford College, N. C.

TERMS, CASH WITH ORDER, except to persons who satisfy us as to their responsibility, when for their convenience accounts will be opened.

AUTO-TRUCK DELIVERIES, based on actual cost, if no Government regulations to interfere, are made within a reasonable distance of our Nurseries. The advantages of truck delivery are many. Boxing is eliminated, stock arrives in much better condition, and the goods are landed on the ground within a short time after being dug.

GUARANTEE: We exercise great care to keep our varieties true to name, and are willing at all times to resupply any stock that may prove otherwise, or to refund the amount paid us therefore (at our option) provided: the account was paid promptly, and we are advised within five years; it is mutually agreed that our responsibility ends with such action. No warranty as to productiveness of any tree or plant we sell is given. Orders shall be void should unavoidable injury befall the stock.

REPLACEMENTS: When stock has been properly cared for, and the account paid promptly as agreed, any plants that fail to grow the first season will be resupplied once at half list price at our warehouse or equal value of other items; transportation and planting costs, if any, extra. ("Replacements" refer to retail sales only.)

OFFICIAL INSPECTION. We furnish with each shipment a certificate that our Nurseries have been examined by the State Entomologist of North Carolina and found free from contagious diseases.
BROAD-LEAF EVERGREENS

This class of plant material is suited to the Piedmont section better than almost anything else, as you can have plants that are evergreen, and many of them bloom and berry, while some lend themselves to formal pruning. They almost all stand shearing well.

In addition to the trees and plants mentioned in the following pages, we have quite a lot of other varieties in small quantities and in a number of cases, larger sizes than quoted herein. So if you have special items or sizes different from this list, let us know your needs and the chances are that we can supply. If we do not have it, perhaps we can locate with some of our connections.

Write us about any trees or plants you have in mind.
THESE THREE SORTS ARE ALL DWARFISH, COMPACT PLANTS, SUITABLE FOR LOW WINDOWS, ETC., AND EASILY PRUNED TO FORMAL SHAPE.

FLOWERING SHRUBS

Ornamental flowering shrubs add variety to the landscape. Although leafless most of the winter, many have colorful twigs and berries, and all have beauty in the form of flowers, or foliage. Plant more shrubs. We list a few of the leaders, but if there are others you would like to have, write to us for prices.

18-24 ins. .... 1.50 2-3 ft. .... 2.00

FORSYTHIA spectabilis. Bright yellow flowers, profuse bloomer.
2-3 ft. .... 2.00 3-4 ft. .... 2.50

FORSYTHIA Lynwood Gold. Golden yellow flowers, erect growth, one of the new varieties. In Forsythias there is nothing better.
2-3 ft. .... 2.50

FORSYTHIA SPRING GLORY. Large, yellow flowers cover the plant in the spring. We think this the best of the pale yellow Forsythias.
